Hydrovacs

Brandt

Smarter Build. Simpler Digs.

Brandt Hydrovacs deliver the maneuverability, capacity, and precision needed for utility work success with exceptional durability. Plus, they are backed by world-class service and support to make your life easier.

Hydrovac Made Simple.

Make short work of your utility projects with a simple, smart design to make your job easier.

One Button Operation

After you park the truck and put the transmission in neutral, the truck is ready to work at the push of a button.

Industry-leading 28' Boom Reach

Access hard-to-reach areas easier without constant repositioning to get the job done faster. The below-grade boom rotation can dig an 18' hole with one dig tube.

Instant Troubleshooting

The fully integrated CANBUS onboard troubleshooting system lets you instantly diagnose issues for quicker repairs.

Power Without the Problems.

With insight from equipment owners, operators, and dealers, Brandt Hydrovacs were designed from the ground up to eliminate common issues others ignore. That's why we've developed our Hydrovacs free from several problem-prone components.

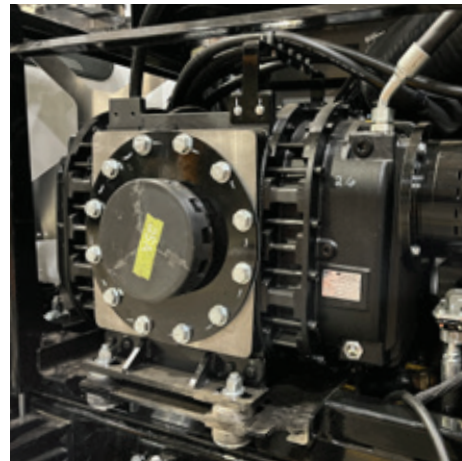

Smarter Pump Control

With no unloader valve, the water pump automatically shuts off when releasing the trigger and runs 25% less frequently, minimizing pump wear.

All Power, No Transfer Case

Brandt Hydrovacs come without a transfer drive case, so you can drive while operating all functions and get the job done faster.

Superior Electrical System

70% less wiring than other brands, along with a fully sectionalized electrical harness and labelled wires, lead to fewer electrical issues.

DISCOVER THE BRANDT DIFFERENCE.

At Brandt, your success is the only way we measure ours. As one of North America's largest privately held, family-owned industrial equipment manufacturer, we've built our brand around supporting the people who keep our business moving, like you, with powerful machines, reliable parts, and unbeatable service.

Manufacturing expertise

Our modern manufacturing facilities total over 1 million sq/ft and are powered by cutting-edge automation and over 700 skilled tradesworkers.

Engineering innovation

Our smart, field-tested product designs emphasize simplicity and reliability and are the product of extensive collaboration with equipment owners and operators like you.

Superior parts and service support

Two dedicated U.S. parts and service locations with fast-turnaround inventory, a Brandt Technical Assistance Center, dedicated field support reps, and a 24/7/365 call center ensure you get the support you need when you need it.

Made for your market

Our Hydrovacs are built to serve your market, whether you're a gas and electrical contractor, utility owner, or operating a directional drilling company. You can depend on our vac trucks to get the job done day in and day out.
