PORTABLE VACUUM

LP61-G

Powerful. Portable. Precise.

The LP61-G goes where larger units can't—replacing inefficient manual litter picking with fast, powerful cleaning. Compact, lightweight, and easy to transport, it's built for parks, fencelines, parking lots, and city streets alike. By streamlining litter collection, the LP61-G boosts efficiency, reduces labor, and helps keep public spaces cleaner and safer—without compromise.

WHERE IT WORKS BEST

From tight urban corners to remote or uneven terrain, the LP61-G tackles litter in parks, alleys, ditches, roadsides, and fencelines. It's trusted by municipalities, contractors, landfills, transfer stations, amusement parks, recycling centers, airports, and more.

WHAT SETS IT APART

The portable vacuum built for real-world challenges. Designed for maximum efficiency and minimal maintenance, the LP61-G can be mounted on a skid or trailer, transported in a pickup, and deployed anywhere. Its long, ergonomic suction hose extends up to 50 ft., giving operators unmatched reach and flexibility for hard-to-access areas.

TECHNICAL SPECIFICATIONS

Fuel type
Gas (87 Octane/87 AKI/90 RON)

Engine
Vanguard 400 single-cylinder, 14 hp, air-cooled, 4-stroke

Fuel tank
12 US gal. (45.4 L) total: 1.6 US gal. (6 L) engine, with two 5.2 US gal. (19.7 L) jerry cans

Drive
Double-groove pulley and 2 V-belts, 1.26:1 fan pulley to engine pulley ratio

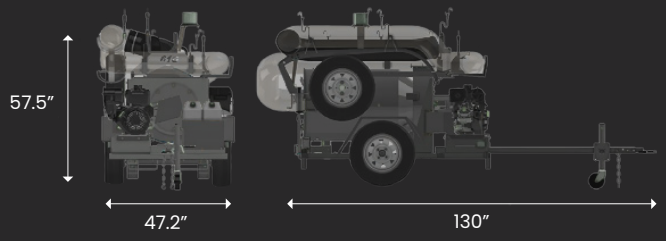
Vacuum rating
Up to 2200 CFM

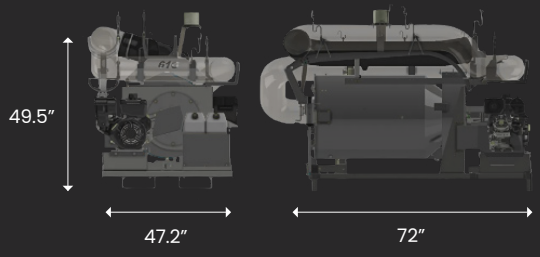
Litter capacity
50 US gal. (190 L)

KEY FEATURES AND BENEFITS

PORTABLE CLEANING POWER	The LP61-G replaces slow, manual litter collection with a high-performance vacuum that's compact enough for hard-to-reach areas.
5× MORE EFFICIENT THAN MANUAL PICKING	Its powerful suction tackles dry, wet, or humid debris with ease—delivering faster, safer, and more consistent results.
FLEXIBLE TRANSPORT OPTIONS	Available in skid-mount or trailer-mount versions, the LP61-G adapts to your operations with simple transport and quick setup.
LOW MAINTENANCE, HIGH VALUE	Minimal upkeep and a rugged build mean lower costs, less downtime, and reliable performance for years to come.

DIMENSIONS





BUILT YOUR WAY

The LP61-G can be configured to fit your operation, whether mounted on a pickup or trailer. Optional add-ons expand its versatility and performance:

TRAILER MOUNT
Tow-behind unit with street-legal lighting and optional spare wheel.

SKID MOUNT
Compact design fits a standard 6-ft pickup bed for direct access to tight areas.

HOSE EXTENSION
Add 15 ft. or 25 ft. hose extensions to tackle hard-to-reach debris.

DUST CONTROL FILTER
2-micron cartridge for enhanced filtration.

BAG OR BAGLESS SYSTEM
Choose between collector bags or a Kevlar bin.
