Excelway®

COMPACT SWEEPER

B200

One machine. Four seasons. Unlimited possibilities.

The Excelway B200 is North America's only compact, 4WD vacuum sweeper designed for year-round performance. With its powerful suction, tight turning radius, and the ability to switch attachments in minutes, the B200 adapts easily to seasonal needs—whether you're sweeping streets, plowing snow, spraying water, or applying salt. One machine, endless configurations—built to replace multiple vehicles and maximize operational efficiency.

WHERE IT WORKS BEST

From tight spaces to wide-open areas, the B200 excels. With a width of only 61 in [1560mm] and 4-wheel steering, the B200 navigates narrow alleys, bike lanes, parking decks and other confined spaces with ease. Its robust design make it equally effective in larger areas like parks, campuses, and industrial sites. Whether it's daily sweeping or seasonal maintenance, the B200 delivers consistent performance across diverse environments.

WHAT SETS IT APART

Multi-functionality meets durability and performance. The B200 stands out with exceptional suction power, built to handle everything from fine dust to bulky litter. Its patented vacuum head ensures consistent performance, while the iLink system lets you switch attachments quickly for true year-round versatility. Built in North America, the B200 keeps your total cost of ownership low—with competitive pricing, faster turnaround, reduced shipping costs, and dependable local support.

TECHNICAL SPECIFICATIONS

Max. total weight (GWVR)
11023 lbs (5000 kg)

Payload
3300 lbs (1500 kg)

Hopper volume
2.6 cu yd. (2 m3)

Maximum speed
25 mph / 12 mph
(40 km/h / 20 km/h)

Sweeping width
61 to 98 in
(1,560 to 2,500 mm)

Engine
Stage V Tier 4 - 75 hp
(55.4 kW) @ 2,600 RPM

Maximum gradeability
30%

KEY FEATURES AND BENEFITS

EXCEPTIONAL SUCTION POWER

The B200's patented stainless steel vacuum head allows for the collection of larger debris without driver intervention. It can even vacuum litter while in reverse, enhancing efficiency and coverage.

VERSATILE CONFIGURATIONS

The B200 isn't just attachment-ready—it's fully capable across every configuration. Whether plowing snow, spreading salt, or pressure washing, each attachment delivers the performance you'd expect from standalone equipment.

OPERATOR-FIRST DESIGN

A spacious, climate-controlled cab with direct sightlines, intuitive touch controls, and ergonomic seating keeps operators comfortable, focused, and in full command all day long.

EASY TO DEPLOY, SIMPLE TO OPERATE

The B200 is designed for fast integration into your fleet—no commercial driver's license required. Intuitive controls and straightforward operation reduce training time, making it easier to staff and put to work right away.

BUILT YOUR WAY

Every operation is different. That's why the B200 is designed to adapt—with a full range of attachments and options to match your environment, season, and workload. Upfit your machine with the tools that make sense for your daily challenges: One platform, countless possibilities.

THIRD BROOM

Extend your sweeping width and improve edge cleaning for greater coverage in fewer passes.

RETRACTABLE WANDER HOSE AND PRESSURE WASHER GUN

Extend your cleaning reach and handle stuck-on debris with precision.

ALUMINUM CARGO BED WITH FOLD-DOWN SIDES AND HYDRAULIC TRILATERAL DUMP

Easily load, carry, and unload bulky material from the rear or either side with a durable, high-capacity platform.

HYDRAULIC SALT SPREADER

Add efficient winter maintenance with controlled, high-capacity salt distribution.

HYDRAULIC SNOWPLOW

Clear snow efficiently with smooth swiveling control and fast front-mount integration.
